

In Auburn Hills, Michigan site we're hiring:

SR. QUALITY ENGINEER

Success requires people with ideas. People who create connections for real exchange.

As one of the world's leading specialists for transmitting and receiving systems in mobile communication, we develop, manufacture and sell antennas, tuners and infotainment systems for vehicles as well as customer-specific solutions for the M2M and telematics market. Internationally successful and connected to our German roots, we are constantly bringing groundbreaking developments to the streets and are thus continuing to expand our pioneering role in the future.

Duties and Responsibilities

- Main contact for customer related quality topics during development and production phase
- Maintain and manage quality assurance policies and procedures to meet customer and general quality standards
- Devise sampling procedures and directions for recording and reporting quality data
- Initiate investigations into supplier quality issues and review supplier 8D reports
- Investigate customer complaints and non-conformance issues
- Develop, recommend, and monitor corrective and preventive actions
- Prepare reports to communicate outcomes of quality activities
- Coordinate and support on-site audits conducted by customers and external providers
- Review and release PPAP for suppliers and to customers

Required Knowledge, Skills, and Abilities:

- Bachelor of Science degree in Engineering Management, Industrial Engineering or Electrical Engineering
- 5 plus years of experience in quality
- Experience in the Automotive Electronics industry highly desirable
- Knowledge in QM-Systems, APQP and PPAP, ideally in the automotive environment
- Quality inspection, auditing and testing experience
- Sufficiently mobile and flexible to travel up to several days in a month including occasional international travel
- Thinks operationally and strategically, analyzes issues, uses sound judgment, generates new ideas/ goes beyond the status quo

Are you ready to be part of a highly motivated team and expand our leadership position in the industry together? Then we look forward to **receiving your application documents by email!**
